

Automatic Gravity Filling Machine

Time Based Automatic Filling Machine

ONE MACHINE FOR YOU
CURRENT AND FUTURE
NEEDS

The Automatic Gravity Filler is ideal for filling thin liquids with consistent viscosity. Volumetric time gravity filling method produces repeatable and accurate fill volumes. The Gravity Filler is manufactured with a heavy duty 304 stainless steel, tig-welded tube frame and reservoir. It also features user friendly PLC controls and touch screen HMI panel. This filler is capable of accommodating up to 16 heads, and utilizes an automatic product level sensing float system for filling efficiency. Many more features and options are available for even more versatility and customization. Gravity Fillers are utilized by the food and beverage, cleaning and specialty chemical, pharmaceutical, cosmetic and personal care industries for various filling projects. The Automatic Gravity Filler can be built to suit a wide variety of applications including sanitary, hazardous, flammable, and corrosive products and environments.

TYPE 1

TYPE 2

Maximum speed of
100 bottles/min

5 - 45 minute
changeover time between bottles
